Our **Concierge Services** consists of: grocery shopping, returning items, picking up prescriptions, making appointments, walking the dogs, taking pets to groomer/veterinarian, picking up dry cleaning, and other related activities. Please call for more information.

Our **Postpartum Caregivers** main role is "mothering the mother". They will: keep mother fed and well hydrated, assist with breastfeeding education, play with older siblings, care for the baby while mom plays with older children, prepare meals, educate and help with infant care, prepare meals, care for the nursery, tidy the kitchen, listen to mom, help with laundry, care for children while mom naps or runs an errand. Our concierge services are also included with our postpartum caregivers.

Our **Overnight Services** are a wonderful option when you need a good nights' sleep. The caregiver will care for the baby while you sleep, she will bring the baby to you as instructed for breastfeeding, if bottle feeding she will feed the baby, clean all bottles, empty the diaper pail, keep nursery tidy. The caregiver will rest when appropriate. You will wake in the morning rested, to a light healthy breakfast and a clean kitchen.
